RE: Proposition 65

August 2, 2018

To Whom It May Concern,

Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The proposition protects the state's drinking water sources from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm, and requires businesses to inform Californians about exposures to such chemicals.

We seriously take into consideration the impact of our products have to health and the environment. All products supplied to our customers are compliant with the Proposition 65 directive and contain no chemicals listed within the regulation.

Regards,
