RE: REACH

August 2, 2018

To Whom It May Concern,

The Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) is an EU regulation released in December of 2006. REACH Compliance is designed to improve the protection of human health and the environment through better identification of the properties of chemical substances

We seriously take into consideration the impact of our products have to health and the environment. All products supplied to our customers are compliant with the REACH directive and contain no chemicals listed within the regulation.

Regards,

A handwritten signature in black ink, appearing to read "Julie McComb", written over a large, light-colored circular mark.
